11	I love that it's bringing a variety of people interested in immigration & the settlement of newcomers together. I'd like to see more built-in networking within the sessions because at times it just seems that people have listened and left. I liked it when the Twitter feed was projected onto the wall so those not physically in attendance were more obviously welcomed and included. The topics have been great so far.	Nov 2, 2012 3:55 PM

16	Thank you for organizing these events. So far, I think the events have done a good job of pulling in different people - i.e. not the same people that are typically at these events. I would prefer that networking, discussion etc. be integrated throughout the event, rather than adding a block of time on at the end. Also, it is a little strange to be addressed as "Collaborator." I'm not sure what the alternative is - but it sounds a little sinister :)	Nov 2, 2012 12:15 PM
17	keep up the great work!	Nov 2, 2012 11:51 AM
